Welcome to the August issue of InSight.

Division 39 has put together a fantastic program at the American Psychological Association (APA) meeting in Washington, D.C. from August 4-7. In addition to catching up with analytic colleagues, the APA meeting is also a great way to find out about what other clinicians and scientists are saying. Click here for more information about the conference and see below regarding Division 39's exciting programs.

Results of the election for Division 39 Board of Directors are in! Congratulations to all who will be serving on the board and thanks so much to all who ran. See Division Updates for the results of the election.

Finally, there is a lot of news for early career psychologists (ECPs). See Division News for information on a new mentoring program designed to help ECPs present at the Division 39 Spring meeting and for help in getting published!

Have a great month and hope to see you at the APA meeting. As always, if you have questions or thoughts, please e-mail me.

Division 39 Election Results
Dear Division 39 Members,

I am happy to announce the results of the Division 39 elections. All of the following candidates will begin their terms on January 1, 2012.
Congratulations to our new officers and board members.

Sincerely,
Mary Beth M. Cresci, Ph.D., ABPP
Chair, Nominations and Election Committee

Bringing Analytic Theory Back to the Big Tent of Psychology

Division 39 Programs at The American Psychological Association's Annual Conference in DC, August 4-7

Now that you have whet your appetite for wonderful presentations at the Spring Conference in NYC, it is time to prepare for the main course this summer in Washington, D.C. From August 4-7, Division 39 will bring psychoanalytic theory and clinical work back into APA and bridge diverse divisions that have common interests. Along with our many terrific presentations, we are excited to have two invited panels that integrate analytic theory and concepts within social psychology (Division 8), clinical psychology (Division 12), and counseling psychology (Division 17).

On Friday night, we have partnered with Division 8 to bring two esteemed psychologists to APA who have written extensively on attachment theory, emotion regulation, and trauma (Friday 4-5:50)- Dr. Mario Mikulincer and Dr. Elliot Jurist.

To read more about the exciting programs at the APA meeting click here.

News For Early Career Psychologists

The Early Career Committee is working on several exciting projects in preparation for our 2012 Spring Meeting in Santa Fe, New Mexico. We are creating a panel to discuss clinical identity formation from an early career perspective, including learning how to balance roles as academicians, artists, and social activists, while practicing as psychodynamic clinicians. Increasingly, challenges have been posed as early clinicians maneuver through landscapes rigidly defined by evidence-based practices. This panel will also address issues of diversity and challenges in providing psychodynamic based treatment for underserved individuals.

The Early Career Committee has started a pilot program (see below for more information) matching analysts with newer clinicians seeking help with presentations and future publications. This group is headed by Dana Castellano, a new Early Career Committee member. Other exciting news includes a push for sharing and/or finding more affordable housing options during the Spring meeting. These efforts are being coordinated by Early Career Committee member Daphny Ainslie, along with the graduate student committee led by Bart Magee.
We encourage early career clinicians to join Division 39 and take advantage of the steep discounts to meetings and journals, as well as the social networking, mentoring, and other valuable learning opportunities available through this unique psychodynamic community.

Finally, DO NOT MISS the conversation hour sponsored by the Early Career Committee on Saturday, 4-5 pm., in the Hospitality Suite, August 6, 2011, during the American Psychological Association's Annual Meeting in Washington, D.C. We welcome any interested early career clinicians and all are invited. Please contact us with any questions or thoughts!

The Early Career Professional (ECP) Committee is launching a Mentorship program in order to assist ECPs in navigating the process of submitting a proposal for next year's meeting in Santa Fe, April 18-22. Several well-published and respected analysts/dynamic clinicians have expressed the desire to help engender the voices of the next generation of analytically-oriented thinkers.

If you are an ECP (within the first 7 years after training) with an idea for a paper or a panel proposal and would like some guidance, please email Dana Castellano with "ECP Mentorship Program" in the subject line. She will then forward your proposal idea to one of our mentors, who will then contact you in order to set up times to submit your ideas and get feedback as to what makes a "winning" proposal. Please keep in mind that participation in this program is by no means a guarantee that your proposal will be accepted, but it will help you in networking and also enhance your ability to translate your ideas into polished submissions. Also, note that the deadline to submit proposals is September 9, 2011.

If you are interested in serving as a mentor for the next or future conferences, please also email Dana with "ECP Mentorship Program" in the subject line. Remember, your voice does matter! You can get your new ideas out there! Please refer to the Call For Papers if you have any questions about submissions by clicking this link.

Also, please check out the ECP Committee's webpage.

Thank you!
The Early Career Professionals Committee

Section III Report

Women, Gender, and Psychoanalysis is dedicated to professional development, research, scholarship, networking, mentoring, and referral opportunities. We promote deepened understanding of contemporary gender-related concerns involving work, play, and family.

We apply theory and research to clinical issues at our programs at the annual Division 39 spring meeting and the APA August meeting. We actively encourage members' political advocacy and maintain liaisons with other groups. We are especially focused on outreach to early career professionals. As a "psychological home" for women in psychology and psychoanalysis, we have invited innovative and creative presenters who are scholars in other fields, including art history, neurobiology, reproductive biology, sex research, and child abuse. To read the rest of this report, click here. To join Section III, click here.

Meet board certified psychologists and learn more about the ABPP in Psychoanalysis. See an interview with Marilyn Charles, Ph.D., ABPP and Karol A. Marshall, Ph.D., ABPP, conducted by Marilyn Jacobs, Ph.D., ABPP by clicking here.

NEW SCHEDULE FOR JOHANNA K. TABIN/DIVISION 39 BOOK PROPOSAL PRIZE COMPETITION

Division 39 and APA Press announce that beginning next year the Johanna K. Tabin/Division 39 APA Book Proposal Prize will be awarded at the Division 39 Spring Meeting.

Consequently, the deadline for submissions for the 2012 prize is DECEMBER 31, 2011.

This is the fifth annual contest for a first book by a psychoanalytic author. The winner receives a $1000 cash prize, certificate of recognition, and guarantee of publication by the APA Press. The aim of this prize is to encourage psychoanalytic writing by Division 39 members who have yet to publish a psychoanalytic book. We look for good writing, originality, as well as clinical and scholarly relevance. While some previously published material may be included, the proposed book should consist primarily of new work and promise to be an original and coherent monograph. Edited collections of previously published papers are not acceptable, nor are edited volumes of contributions by more than one author. Simultaneous submissions to other publishers will disqualify the entry.

The proposal should consist of:

1) a cover letter with the only mention of the author’s identifying and contact information
2) a full CV (with name deleted)
3) a statement of the mission, scope, and potential contribution of the project to psychoanalysis; this statement should be complete enough that the reviewers can gain a good sense of the theme of the book and its potential contribution to the field
4) table of contents
5) one, and only one, sample chapter that represents the theme of the monograph

Submissions are accepted in hard copy only and must be in quintuplicate. Blind review evaluations are conducted by the Book Proposal Prize Committee and an Honorary Judge.

All submissions for the 2012 award must be submitted by December 31, 2011 to:

Book Prize Division of Psychoanalysis
2615 Amesbury Road
Winston Salem, NC 27103

Questions should be addressed to: Franck Summers, Ph.D., ABPP
312-266-8230
