SISTER DISCIPLINES IN DIALOGUE: THE VIRTUES NECESSARY FOR INTERDISCIPLINARY EXCHANGE

Psychology, theology, and philosophy were originally sister disciplines, in close dialogue. But the dialogue between at least some parts of these disciplines appears to have broken down. This panel brings together researchers from the most disparate corners of the three disciplines: Adam Green (psychology), who works on the cognitive neuroscience of creativity, learning, and religious belief; Frederick Ruf (theology), whose work includes the relationship of religion to the construction of the self; and Katherine Withy (philosophy), who works on phenomenology and meaning; as well as Ph.D. student Hemal Trivedi, whose interests across the disciplines shows that a productive interdisciplinary conversation is possible. Speakers will reflect on their own discipline's values and methodological commitments, identify common ground and shared values, acknowledge problems in cross-disciplinary communication, and articulate the virtues that are necessary to make this specific cross-disciplinary dialogue fruitful.

Time: 2:00pm-2:50pm

Location: Walter E. Washington Convention Center, Level 1, Room 147A

Co-Sponsors: 03, 36, APAGS
