

SPRS PRESENTS:  
**AN OPEN SCIENCE OF  
RELIGION AND SPIRITUALITY?  
PROBLEMS, MYTHS, AND  
POSSIBILITIES**  
SEPT. 30, 3 - 4 PM ET

- A webinar (ZOOM LINK [here](#)) with
  - **Ward B. Davis, Psy.D.**, Wheaton College
  - **Sarah A. Schnitker, Ph.D.**, Baylor University

Across scientific disciplines, open science practices are becoming increasingly common and expected. However, they are not yet well-understood or well-utilized in the psychology of religion/spirituality field. In this webinar, we describe several open science practices, debunk myths about the open science movement, and discuss possibilities for using open science practices to enhance the quality, integrity, and impact of scientific research on religion and spirituality.
