Present: Drs. Misha Bogomaz, Noelle Lefforge, Josh Gross

Dr. Gross called the meeting to order.

The group noted that there is a diverse group of experts across different organizations (APA Division 49, AGPA, and ABGP) who are committed in supporting the revision of the petition.

The next big task is to continue preparing for the revision. We need to have more specialty-recognized programs. Training programs on a graduate and internship levels should apply for specialty recognition. We need to get the word out about what the process entails. Provide incentives to those programs.

**Action item**: Dr. Lefforge will create a resource for the organizations that will outline the requirements and the process to apply for the specialty recognition.

**Action item**: Dr. Gross will be responsible for marketing the resource created by Dr. Lefforge.

Respectfully submitted,
Misha Bogomaz, Psy.D., ABPP, CGP.
Group Specialty Council Secretary
