Postdoctoral Residency Competencies for Group Psychology and Group Psychotherapy Specialty

1. Integration of Science and Practice
   - Demonstrates the use of evidence-based knowledge and interventions for planning and facilitating groups.
     - Conducts effective group organization practices such as screening, orientation, and group process commentary.
     - Applies the scientific principles from current research findings to group members’ problems, issues and concerns.

2. Ethical and Legal Standards/Policy
   - Recognizes ethical dilemmas and concerns related to group psychotherapy and uses an ethical decision making model when ethical dilemmas arise in groups.

3. Consultation and Evaluation
   - Demonstrates an ability to work constructively with interdisciplinary mental health professional teams.
   - Engages in evaluative practices as applied to groups such as cohesion, group progress, and the like.

4. Supervision and Teaching
   - Applies a supervision model when working with mental health professionals in training such as in practicum and internship.
   - Presents information relative to group psychology and group psychotherapy in venues such as case presentations, grand rounds and the like.

5. Assessment
   - Demonstrates an ability to evaluate the group’s and group members’ needs and progress.
   - Uses appropriate assessment measures and instruments for screening and progress.

6. Professional Values, Attitudes and Behaviors
   - Demonstrates an awareness of personal values, attitudes and behaviors that have the potential to affect the therapeutic process.
• Conceptualizes and implements a self-reflective process related to group facilitation.

7. Intervention

• Facilitates the emergence of group therapeutic factors such as universality, hope, catharsis and cohesion.

• Effectively intervenes to prevent and/or address problematic group member behaviors such as monopolizing, story-telling, and help-rejecting.

• Effectively and safely manages members’ expression of difficult emotions such as anger, fear, guilt and shame.

8. Individual and Cultural Diversity

• Facilitates the therapeutic experience for groups composed of diverse individuals.

• Conceptualizes the role of power dynamics in groups.

• Demonstrates an ability to intervene effectively when issues such as marginalization and microaggressions occur in groups.
